

## OLDI – Gateway

### CADMOS OLDI gateway

P/N 804-033 MCF Board  
P/N 824-001 OLDI Gateway software app.

### Highlight

- ❖ Fit into rugged hardware platform
- ❖ Full support of FDE-ICD protocol
- ❖ Full support of FMTP on LAN
- ❖ Supports double LAN connection, for redundancy
- ❖ Tested with Eurocontrol ETIC OLDI
- ❖ WEB configuration
- ❖ SNMP support
- ❖ Specific output for message recording

Now Cadmos ATC-router supports OLDI gateway function. This new application performs a bridge from legacy OLDI X25-FDE backbone to TCP/IP-FMTP infrastructure. CADMOS fills the gap of the FMTP specification in the current OLDI FDE-ICD applications
